Professional Summary

Frontend Developer and Software Engineering graduate specializing in React.js, Next.js, and TypeScript. Experienced in developing production web applications for e-commerce, mobility, and digital service platforms. Skilled in responsive UI development, reusable components, state management, REST API integration, and custom CMS interfaces. Collaborates with backend developers to deliver reliable features, troubleshoot integrations, and perform functional testing. Experienced in supporting deployment and maintaining production web applications.

Professional Experience

Z Agency

Frontend Developer / Part-Time

Oct 2025 – Present

Remote

- Developed and maintained production web applications using React.js, Next.js, TypeScript, and Tailwind CSS.
- Implemented responsive customer-facing interfaces, reusable UI components, and administrative dashboard features.
- Integrated REST APIs, authentication, payment services, Google Maps, and third-party services.
- Collaborated with backend developers to resolve integration issues and validate end-to-end user workflows.
- Performed functional testing, responsive QA, debugging, and production verification.

Up-Lancer

Frontend Development Trainee

Dec 2024 – Feb 2025

Palestine

- Developed responsive React.js interfaces and reusable components using JavaScript, HTML, and CSS.
- Practiced REST API integration, debugging, and frontend component organization.
- Used Git and GitHub for version control and collaborative development.

Technical Skills

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design.

React Ecosystem: React Hooks, Reusable Components, Zustand, Redux Toolkit, Context API, React Query, Axios.

APIs & Integrations: REST APIs, Authentication, Payment Gateway Integration, Google Maps API, AI APIs.

Backend & Databases: Supabase, PostgreSQL, Prisma, MongoDB, Firebase.

UI & Styling: Shadcn UI, Material UI, Mantine UI, Bootstrap, Framer Motion.

Testing & Tools: Git, GitHub, Postman, Manual QA, Functional Testing, Debugging, Vercel, Netlify, cPanel.

AI-Assisted Development: Cursor, ChatGPT, Claude, Gemini.

Selected Projects

Additional projects and case studies: ameerabudraz.com.

Shams Flowers – Multi-Vendor E-Commerce Platform

Next.js, TypeScript, Tailwind CSS, Zustand, Axios, Google Maps

- Developed customer-facing frontend features for a Saudi multi-vendor flower marketplace.
- Implemented product discovery, store selection, shopping, customer account, and order management interfaces.
- Integrated REST APIs, location-based functionality, payment services, and AI-assisted product features.
- Collaborated with the backend developer on integration testing, debugging, and feature validation.

Z Agency – Corporate Website & Custom CMS

Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL, Supabase

- Developed a bilingual corporate website and custom CMS using an existing UI/UX design.
- Built administrative interfaces for managing projects, content, media, and website settings.
- Implemented database-backed content management workflows, localization, and RTL support.
- Supported SEO implementation, testing, and production deployment.

DoosDoos – Vehicle Rental & Mobility Platform

React.js, Tailwind CSS, REST APIs, Google Maps

- Developed frontend interfaces for vehicle rental and mobility booking workflows.
- Integrated APIs supporting vehicle discovery, rental requests, and transportation features.
- Collaborated with backend developers to troubleshoot integrations and validate features.
- Performed manual QA, responsive testing, and functional verification.

Star Media – Social Media Services Platform

Laravel Blade, HTML5, CSS3, JavaScript

- Redesigned and implemented customer-facing pages and the user dashboard using Laravel Blade.
- Built responsive layouts, interactive forms, and reusable interface components.
- Preserved existing backend functionality while improving frontend usability and consistency.
- Performed functional testing and supported deployment through cPanel hosting.

Education

University of Palestine

Bachelor of Science in Software Engineering

2020 – 2025

Palestine

Certifications

- React.js Development Certificate – 2023
- Frontend Development Certificate – 2022
- Java Programming Certificate – 2021

Languages

Arabic: Native

English: B2 (Upper-Intermediate)
